TAMTRON GROUP

POWER®

MATERIAL HANDLING AND RECYCLING SCALES

POWER BENEFITS

- Easy and fast to use - maintain high performance
- Identify collected material - control the material flows
- Real-time reporting and monitoring
- Advanced data transfer options

POWER®

For forestry, cargo and recycling

POWER Material Handler scale

The robust Power Material Handler Scale is manufactured for demanding use, most typically when handling scrap metal, freight and timber. Power material handler scales are always optimized for each material handler machine. Accuracy: ± 1 – 2 % of capacity.

POWER Container Handler scale

The Power container handler scale is widely used in all container depots and logistics hubs. It is an excellent tool to monitor cargo weights and its overload prevention reduces the container stacker's wear and tear. Accuracy: ± 1 % of capacity.

POWER Log Handler scale

The Tamtron Power log handler scale is commonly used controlling inbound wood material flow at sawmills. Designed in cooperation with the leading forest companies, the log handler scale has proven its value in the forest industry. The scale also reduces the unnecessary wear and tear of the log handler. Available with an immersed weight option. Accuracy: ± 1 % of capacity.

TAMTRON INTERNET

- Monitoring and reporting in real time
- Integration to ERP-system
- Real time data can be used in different locations

Scale model 100 - For demanding everyday use:

- 2 main memos for data storage
- Competitively-priced scale for basic weighing
- Upgradable to 300 series

Scale model 200 - When large memory and versatile reports are required:

- 8 main memos for data storage, freely nameable
- Storing capacity for 10 000 information items
- All valuable customer data combined on reports and tickets
- Upgradable to 300 series

Scale models 300i and 300 USB - Wireless data transfer and online access:

- 8-12 main memos, freely nameable
- Data transfer wirelessly with GPRS (300i) or USB memory stick (300 USB)
- Online 24/7 access to weighing information (300i)
- iStock real-time stock (300i)
